

JUNE DINNER MEETING
Tuesday June 26, 2001

Test Management in a Web Year
Kathy Nakeff, Test Manager, Bell Canada

Gone are the days when test teams had the luxury of years to test a product for market use. In today's world of Web access the consumer demands projects to be in the market place in "Web Time". Test teams are faced with the challenge of shrinking deadlines and how to deal with them.

This presentation will discuss some of the tools that one Independent Verification & Validation Team has found to be invaluable in meeting challenges of "Web Time" deliverables. These tools include, but are not limited to:

- Methodology
- Prioritization
- Metrics & Measurements
- Risk Management
- Defect Management
- Automation
- Formulas for Test Efforts
- Templates
- Post Test Analysis

This presentation is for anyone in Software Testing who needs to understand what is required to move a team forward in any test initiative.

Kathy has been working in the telecommunications industry for 21 years, 9 of which have been in IS/IT as a Business Analyst, User Acceptance Software Tester /Test Manager and an instructor for "in-house" training programs. She was CSTE certified in June 2000. Her largest project to date was User Acceptance Testing associated with the migration of 8500 Users and multiple applications from the OS/2 operating system to the Windows NT operating system. Currently she is a Test Manager associated with System Functional testing and User Acceptance testing within Bell Canada.

Presentations are on the last Tuesday of the month at the Marriott Hotel, 90 Bloor East.

If taking the subway, the location is accessible underground from the Yonge and Bloor subway station.
If driving, you can park in the hotel's parking garage.

Dinner and Presentation: \$30 Members, \$40 Non-Members
Cash and Cheques are accepted at the door.

Please RSVP by noon on Thursday June 21, 2001
